
EDUCATION

- IN PROGRESS **M.S. Mathematics**, University of Illinois Urbana–Champaign
August 2026 – Present
- JUNE 2026 **Bachelor of Science with Honours, Class I**
(Applied Mathematics with Mathematics)
University of Birmingham
- JUNE 2026 **B.Sc. Mathematics and Applied Mathematics**, Jinan University

RESEARCH INTERESTS

Geometric analysis and partial differential equations, with current interests in geometric flows, including mean curvature flow and Ricci flow.

RELEVANT COURSEWORK

- Differential Geometry
 - Real Analysis
 - Abstract Algebra
 - Linear Analysis and Partial Differential Equations
 - Differentiable Manifolds I
 - Hilbert Spaces
- SPRING 2027 Differentiable Manifolds II (MATH 519) (*planned*)

READING AND INDEPENDENT STUDY

- FALL 2026 **Geometric Flows** (*in progress*)
Reading course with Prof. Eric Chen, University of Illinois Urbana–Champaign.
Current topics: partial differential equations and curve shortening flow.
- SPRING 2026 **Differential Topology**
Independent study with Prof. Hai-Long Her, Jinan University.
Topics: the Poincaré–Hopf theorem and generalizations of the hairy ball theorem.
- FALL 2025 **Algebraic Topology and Convex Geometry**
Reading seminar with Jinjin Yang and Prof. Hai-Long Her, Jinan University.
- FALL 2024 **Iwahori–Hecke Algebras and Braid Groups**
Independent study with Dr. Yue Zhao, UC Davis

AWARDS

- OCT. 2023 **Outstanding Student Third-Class Scholarship**
Jinan University
- Nov. 2022 **National College Students Mathematical Competition**
Provincial Third Prize
Chinese Mathematical Society
- 2021 **National High School Mathematics League (China)**
Provincial Second Prize; ranked 92nd in the province

RELEVANT SKILLS

- COMPUTING Mathematica, MATLAB, Python, C
- MARKUP L^AT_EX, HTML, CSS
- LANGUAGES Chinese (native), English (fluent), Japanese (spoken)
